

## Band clips for flexible ducts

# TKSE/TKSL

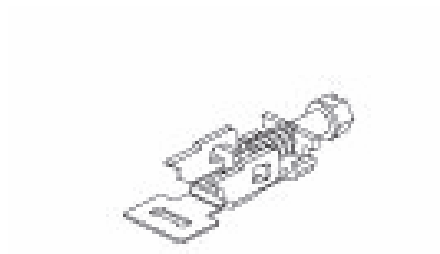

### TKSE

### TKSL

### Dimensions

### Description

The TKSE band clip is necessary for connecting flexible ducts with shaped profiles, connectors, stub pipes etc. Properly shaped edges of the band clip prevent damages while its assembling and mounting. The TKSE band clip is available in 30 m length rolls. It has grooves on its whole length enabling its cutting for convenient pieces. Additionally the use of the TKSL clamps is necessary together with the TKSA band clip.
